

THE HUB

The Hub is at the very heart of The Fountain and represents an incredibly versatile space in which to meet, entertain, socialise and present.

With three high-definition displays throughout The Hub, all capable of running independent content or synchronised from either client supplied material or generating by our own digital branding software, The Hub is a great place for more informal gatherings and product launches. The unique WonderWall, with fifteen differently sized and shaped display boxes, all fully lit, is not only a fascinating talking point, but also a great place to display your own company collateral.

SPECIFICATIONS

The Hub is a large and airy space, benefiting from plenty of natural light and a fully controllable lighting system, meaning we're able to create just the right mood for your event.
