

## THE TRAINING ROOM

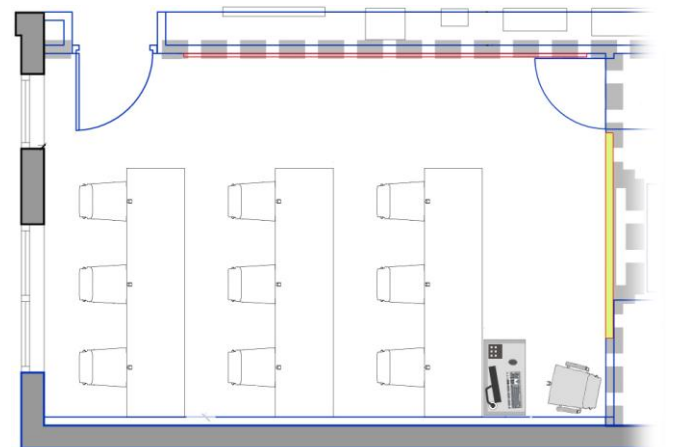

The Training Room provides the perfect environment in which to learn and to teach. Nine independent workstations, each with widescreen flat panel display and Windows powered PC, enjoy a perfect view of the Trainer's podium.

This encourages engagement between teacher and student while the 120" high-definition display ensures that even the most complex content is presented in stunning clarity and detail. Between sessions, delegates can enjoy the relaxed surroundings of The Hub breakout area, delivering an informal atmosphere that's perfect for lunch and debate.
